Pete has been paralyzed for 16 years as of August 4, 2017. An amazing fun loving dad with many passions was recently rushed to the hospital from kidney Failure and an infection. Since then he has gone through extensive treatments and is waiting to go through a second surgery once the infection is healed. His recovery is taking a long time along with immense amounts of bills. Heather (Pete's daughter) has taken on the medical bills to take the stress off her father. However, these bills are just too much for her to handle alone. We ask you to come to the Cut-A-Thon to donate to cover some of the overwhelming costs.

A message from Pete's daughter Heather: Have you ever experienced a love that goes so far so deep so wide so high that you can't even measure it? Well that's the amount of love I have for my dad, my hero, my best friend. My dad taught me everything from building things to driving a boat trailer, from backing up a hot dog stand to fishing, from water skiing to snowboarding, my dad could do it all. Even while paralyzed. My dad always says that he lives for me. He's a courageous warrior who always puts me first before his own needs. But now I want him to fight to live for himself and finally let me put him first. Please join me for this Cut-A-Thon to help my dad truly live again.
